THE BEAUTY OF CSS DESIGN
CSS ZEN GARDEN

禅

THE ROAD TO ENLIGHTENMENT
THE ROAD TO ENLIGHTENMENT

Letting a dark and dreary road lay the past relics of browser-specific tags, incompatible DOMs, and broken CSS support.

Today, we must clear the mind of past practices. Web enlightenment has been achieved thanks to the tireless efforts of folk like the W3C, W.A.S.P. and the major browser creators.

The css Zen Garden invites you to relax and meditate on the important lessons of the masters. Begin to see with clarity. Learn to see the (yet to be) time-honored techniques in new and contemporary fashion. Practice now with the web.

A demonstration of what can be accomplished visually through CSS-based design.

A woman meditating in a lotus position, used as a visual metaphor for enlightenment. She is sitting cross-legged on a white surface, with her hands resting on her knees in a mudra. The background is a soft, light green gradient.
